45,001 gallons or above	Other institutions	\$4.25 per 1,000 gallons

Water Rates follow Increasing Rate Structure in accordance with Georgia State and EPD regulations for water conservation efforts.

If the road has to be cut or bored for any of the above, the cost will be paid by the developer.

In the event of a **water leak** on the customer's side of the meter, the City will give a credit on the sewer cost for any excess above the average sewer bill over the past 12 months; penalties and shut-off/shut-on fees will not be charged or will be credited for the applicable leak months; and any water used, above normal use, will be adjusted to pay the rate charge of normal use, rather than the higher rate, and credit given for any overcharge amount.

Master Rate List 2010
