

HYDRANT FLOW TEST PROCEDURE AND APPLICATION

City of Rincon
PO Box 232
Rincon, GA 31326
(912) 826-5996

A flow test usually involves three fire hydrants. The first hydrant is called the flow hydrant, which is located closest to the property. The second and third hydrants are called the test (residual) hydrants and are located directly upstream and downstream from the flow hydrant.

To request a Fire Flow Test:

1. Contact the Planning and Development Services to request a map of the hydrants located in the area of interest, (912) 826-5996.
2. Turn in completed application and testing fee (\$350), a testing date of no earlier than two (2) business days will then be scheduled by City staff. Applicant must identify hydrants for which the flow test data is requested.
